## PROFILE INFO

Myself Thanusri, and I am passionate Full Stack Developer with a strong foundation in building dynamic, responsive, and user-friendly web applications. Skilled in both front-end and back-end technologies, I specialize in creating seamless and interactive user experiences while ensuring robust and scalable architectures. My passion for continuous learning drives me to stay updated with the latest frameworks, tools, and best practices in modern web development.

## PROJECTS

### Sliding Puzzle Game Development

HTML, CSS, JavaScript

An interactive puzzle game with dynamic tile shuffling, drag-and-drop controls, and a responsive design featuring time and move tracking for an engaging experience across devices.

### Image Gallery Interface

HTML5, CSS3, JavaScript

A responsive slideshow with auto-play, adjustable speed, and multiple transition effects, offering a user-friendly and visually engaging experience across devices.

### Professional landing page

JavaScript,HTML5,CSS3

A responsive, fast-loading portfolio showcasing real-world projects, expert mentorship, and dedicated sections highlighting services, expertise, and career-focused guidance.

### Recharge Dashboard

HTML5, CSS3, JavaScript,PHP,MYSQL

A responsive recharge management dashboard with customer control, payment tracking, and visual analytics—optimized for both desktop and mobile with smooth, secure, and user-friendly interactions.

### E- Swasthya Connect

HTML5, CSS3, JavaScript,PHP,MYSQL,Bootstrap

A digital healthcare platform connecting villagers, ANMs, and doctors for faster diagnosis and case management, featuring role-based access, real-time communication, and centralized health tracking.
